Film-makers have also fallen in love with diverse and picturesque Naantali. Naantali is at the peak of popularity as the scene of Finnish films; thus, tourists can amuse themselves here spotting the backdrops of their favourite films. In 2014, five films were filmed in Naantali, including Mika Kaurismäki's *The Girl King* and *Elämältä kaiken sain*; Johanna Vuoksenmaa's *Viikossa aikuiseksi*; Timo Koivusalto's *Risto Rappääjä ja Sevillan saitur*, as well as Taneli Mustonen's *Luokkakokous*. *Risto Rappääjä ja Liukas Lenart* (Ricky Rapper and Slick Leonard), also filmed in Naantali, was chosen as the best European children's film in 2014.

Naantali

The narrow alleys in the old town, the President's Summer Residence, the beautiful floral display in the Kultaranta Garden, the history of the Convent, churches... The sights in Naantali, Finland's holiday capital never fail to impress.

UNIQUE ATMOSPHERE IN HISTORICAL NAANTALI

OLD TOWN

Hattu, Isokarhu, Jeremias, Pusa, Humppi, Tympä... Explore the Old Town's buildings, narrow streets and unique charm. You will get a real feel of history, its people and stories by joining the "Captivating convent - stories behind the facades" walking tour (page 11) or Naantali museum's audio walk "Echoes from the middle ages" (page 9).

CHURCHES IN NAANTALI

Naantali Church was originally built to serve the Catholic Brigettine Convent situated on a hill. Permission to build the convent was given on the 23rd of August 1443. This is considered to be the founding date of both the convent and the town of Naantali. Bishop Konrad Bitz consecrated the convent buildings in 1462. The church is the only building that remains of the convent.

Naantali Church is a popular tourist attraction; however, it also functions as a parish church and a Road Church in the summer. In summer 2015, the church is open 15 May–16 August Tue-Sun, 10am–6pm. The church is closed on Mondays and Midsummer's Eve.

The Church of St. Henry in Velkua was built on the island of Palva in 1793. The church is a popular attraction with Naantali Music Festival concerts held in the

church alongside worship services and other ecclesiastical events.

Built in 1648, the first wooden church in Merimasku fell into disrepair after the Great Northern War and Greater Wrath. The wooden cross-shaped church which stands today was built in 1726 and is the sixth-oldest wooden church in use in Finland today.

The oldest part of the church in Rymättylä, the sacristy, was built at the start of the 14th century as part of the original wooden church which stood in the same place. The stone church was built at the end of the 14th century or the beginning of the 15th century. The church is dedicated to Saint James (Pyhä Jaakob). Its unique paintings and wooden sculptures reveal the history of the church. The church is part of the Road Church network, meaning it serves travelling holidaymakers during the summertime. The Rymättylä church is open

from 24 June–31 July Wed–Sun from 12 noon–4pm.

CLASSIC

MOOMINWORLD AND VÄSKI ADVENTURE ISLAND

Moominworld is a unique combination of fairy-tale and archipelago scenery. Come with your children to give Moominmamma a hug – there is enough to do, see and experience even for two full days.

In summer 2015, you will hear the sound of hammering in Moominworld, because Moomintroll has decided to build a house. Next to the original blue Moominhouse, you will find Moomintroll's own little building project, which our guests are more than welcome to explore. Moominhouse itself has also been refurbished over the winter months and is more wonderful than ever!

You will have a chance to meet the whole Moomin family and their friends in Moominworld. For many children, hugging the well-known fairy-tale characters is the highpoint of the summer. We have plenty of activities to do together with all the Moominworld characters. Snufkin

reads stories to children in his camp; the witch's cottage is a perfect place to learn witchcraft – and there are daily performances on the Pikku-Estradi stage.

Remember to reserve at least a whole day for a visit to Moominworld so you have enough time to see the Moominhouse, Snork's workshop, Theatre Emma performances, the Fairy-tale trail, beach, and Moominpappa's boat.

Moominworld is open from 6 June–9 August 2015, 10am–6pm and 10–23 August 2015, 12 noon–6pm.

One-day ticket €27
Two-day ticket €37

Joint ticket for Moominworld and Väski €42. Free admission for children under 2 years old.

Winter Magic at Moominworld from 14–22 February daily from 10am–4pm. The magic of winter rouses the Moomin family from their hibernation to have a fun-filled day in Moominworld! Enjoy yourself on the Moominvalley ice rink and sledge down the hill with the Moomins! You can also find sled-dogs and horse rides there. There is plenty of fun to be had including the Moomins' hilarious winter show in the event tent and Moomintroll's jolly ski school. The complete programme is available at www.muumimaailma.fi.

Tickets €19, free admission for children under 2 years old.

VÄSKI

Väski's adventure world is situated in Naantali on an island neighbouring the Moomins. It is designed with school-children in mind: at Väski you can climb, jump, go down a rope slide, pan for gold and try out archery. The fishing village offers simple restaurant services, a beach and a sauna, as well as a domestic animal park run by the villagers. A day at Väski revolves around the Väski adventure game, which you can play as you go around the checkpoints on the adventure trail completing tasks. Once you get home you can record your result on Väski's website and print out a diploma. You can reach Väski on a boat from near the Moominworld bridge in Naantali. A return boat ride is included in the price of the ticket.

Open 13 June–9 August every day from 11am–6pm. Admission €23. Includes a day ticket and boat transportation from Naantali to Väski island. Free admission for children under 2 years old! Tickets also available at www.vaski.fi.

In Naantali, the archipelago is close by and easily accessible. Naantali is part of the Archipelago Trail. The Small Archipelago Trail runs from Rymättylä to Nauvo and is a popular cycling route. Experience the beauty of the archipelago.

THE NAANTALI BOAT SHOW

The best boat event of the summer will take place 22–24 May in the Old Town of Naantali. The Naantali Boat Show is Finland's top event for boat enthusiasts and their families. Welcome to the boat show!

COMMUTER VESSELS ON THE ARCHIPELAGO TRAIL

You don't necessarily need your own boat to reach the archipelago's fascinating and barren outer islands as there are commuter vessels which will take you to the furthest inhabited islands. The ferries and most of the other vessels are free of charge.

Numerous islands in the archipelago are worth a visit, so don't hesitate to embark on a voyage to see the harsh beauty of the islands and experience genuine archipelago life – residents of the islands use these very same vessels.

THE NIGHT OF THE ANCIENT FIRES

The ancient bonfires were used to warn archipelago residents of the threat of danger. Nowadays they are used to honour the tradition. Residents of the archipelago light the bonfires on the last Saturday of August.

THE BEST FISHING GROUNDS

The archipelago provides excellent conditions all year round for sport fishing with rods or nets. The fishing season is at its best late in the autumn and in the spring right after the ice thaws.

General free-time fishing licences are available from the Ministry of Agriculture and Forestry at www.mmm.fi or for example R-kioskis.

A local fishing guide can take you to the best spots and give you tips and tricks on how to catch the biggest fish. Learn about traditional fishing methods, such as summertime seine fishing or fishing with a fyke net.
